PLITVIČKA JEZERA

About Plitvice Lakes O Plitvičkim jezerima

The Plitvice Lakes National Park is the oldest Croatian national park established in 1949 and is considered to be one of the most beautiful natural attractions in Europe. The Plitvice Lakes are famous for their travertine waterfalls and lakes, formed by a continuous biodynamic process of travertine creation (permeable limestone rock formed by calcium sedimentation).

Owing to the undisturbed travertine creation process and hydrological system, the lakes were inscribed on the UNESCO's World Heritage List in 1979.

United Nations Educational, Scientific and Cultural Organization

Plitvice Lakes National Park
inscribed on the World Heritage List in 1979

Nacionalni park Plitvička jezera najstariji je nacionalni park u Republici Hrvatskoj, proglašen 1949. godine, te se smatra jednim od najljepših prirodnih atrakcija u Europi. Plitvička jezera poznata su po sedrenim slapovima i jezerima, formiranim kontinuiranim biodinamičkim procesom stvaranja sedre (propusne vapnenačke stijene nastale taloženjem kalcija).

Zbog neometanog procesa stvaranja sedre i hidrološkog sustava, Plitvička jezera su 1979. godine uvrštena u Popis svjetske prirodne baštine UNESCO-a.

But don't stop at the lakes, there is more to discover!

Conquer the surrounding mountains (Plješevica, Mrsinj) on a bike or by foot, follow crystal clear mountain streams (Matica) from their springs and watch them disappear underground, follow sheep through open kras pastures and discover forgotten villages and hamlets. Visit other interesting places and meet interesting people, all part of the Lika county rich natural, historical and cultural heritage.

Ali nemojte stati na jezerima, ima još mnogo toga za otkriti!

Osvojite okolne planine (Plješevica, Mrsinj) na biciklu ili pješice, pratite kristalno čiste rječice (Matica) od izvora i promatrajte njihovo poniranje u zemlju. Pratite stada ovaca na otvorenim kraškim poljima i otkrijte zaboravljena sela i zaseoke. Posjetite i druga zanimljiva mjesta i upoznajte interesantne ljude, koji su sastavni dio bogatog prirodnog, povijesnog i kulturnog naslijeđa Like.

Route navigation Navigacija po rutama

The Plitvice Lakes destination has a simple and easy to use navigation system which is suitable even for those who are new in navigation in the nature. The system is based on a network of control points connected by trail sections. That enables the user either to simply navigate through predefined routes or to create individual routes of desired length, profile and terrain type, not fearing to get lost. In addition, GPS tracks for predefined routes are available at: www.plitvice-active.com

Destinacija Plitvička jezera označena je jednostavnim i laganim za korištenje sustavom navigacije koji je pogodan i onima koji nisu iskusni u navigaciji po prirodi. Sustav se bazira na mreži kontrolnih točaka koje su povezane dionicama staza. To omogućava korisnicima da se jednostavno kreću po predefinjiranim rutama ili da kreiraju vlastite rute željene duljine, težine i vrste podloge, bez straha od gubljenja. Također, GPS tragovi postojećih ruta mogu se naći na: www.plitvice-active.com
