**Vode, jezera, slapova i šuma
ima i drugdje, a ipak su
Plitvička jezera na čitavom
svijetu samo jedna.**

**There are water, lakes, waterfalls
and forests elsewhere, and yet
Plitvice Lakes are unique in the
whole world.**

Dragi gosti,

dobrodošli u najstariji i najveći nacionalni park Republike Hrvatske. Ovo područje iznimne prirodne ljepote je već 1949. proglašeno prvim nacionalnim parkom u Hrvatskoj. Stvaranju prekrasnih jezera prethodi proces formiranja sedrenih barijera koji čini jedinstvenu univerzalnu vrijednost. Zbog navedenog je Nacionalni park Plitvička jezera 1979. godine upisan na UNESCO-ovu Listu svjetske baštine. Jezerski sustav od 16 imenovanih i nekoliko manjih, kaskadno poredanih jezera zauzima svega 1% od ukupne površine parka koja se proteže na cca 300 km².

Park je otvoren cijele godine, stoga možete uživati u raskoši slapova i boja prirode u svim godišnjim dobima.

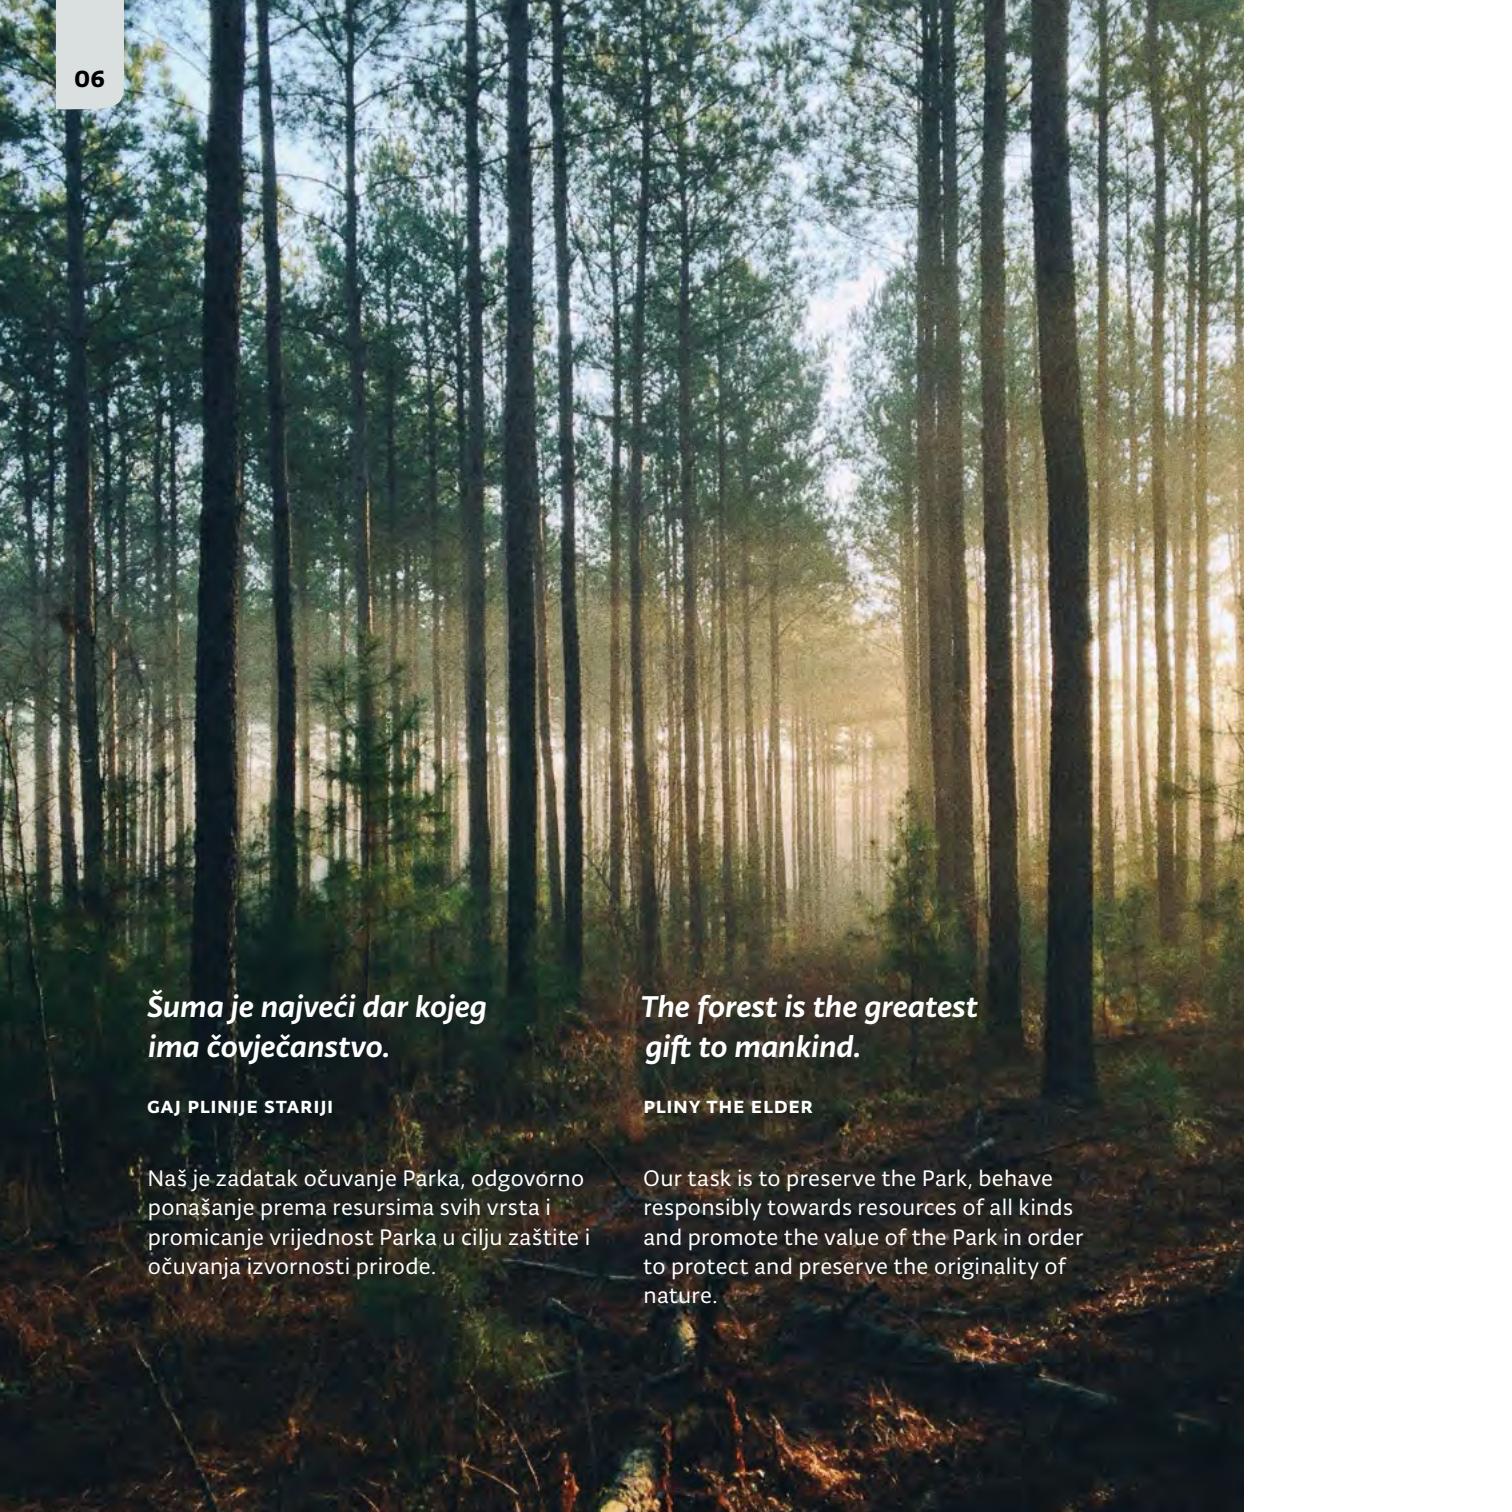

Želimo vam ugodan boravak!

Dear Guests,

Welcome to the oldest and the largest national park in the Republic of Croatia. This area of exceptional natural beauty was declared in 1949. the first national park in Croatia. The creation of these beautiful lakes is preceded by the process of forming travertine barriers, which makes a unique universal value. Due to the mentioned reasons, Plitvice Lakes National Park was inscribed on the UNESCO World Heritage List in 1979. The lake system of 16 named and several smaller, cascading lakes occupies only 1% of the total area of the Park, which extends to approximately 300 km².

The Park is open all year round, so you can enjoy the splendor of the waterfalls and the colors of nature in all seasons.

We wish you a pleasant stay!

*Šuma je najveći dar kojeg
ima čovječanstvo.*

GAJ PLINIJE STARII

Naš je zadatak očuvanje Parka, odgovorno
ponašanje prema resursima svih vrsta i
promicanje vrijednost Parka u cilju zaštite i
očuvanja izvornosti prirode.

*The forest is the greatest
gift to mankind.*

PLINY THE ELDER

Our task is to preserve the Park, behave
responsibly towards resources of all kinds
and promote the value of the Park in order
to protect and preserve the originality of
nature.

GARY SNYDER

Doprinos očuvanju našeg ekosistema, u hotelu Jezero, dajemo naizgled sasvim malim stvarima, uvođenjem biorazgradive ambalaže poput žličica, slamki, šalica za kavu i kutijica za hranu, koja se u kratkom vremenu u potpunosti dekompostira.

*Nature is not a place
to visit. It is home.*

GARY SNYDER

We contribute to the preservation of our ecosystem at the Jezero Hotel with seemingly minor things, by using biodegradable packaging such as spoons, straws, coffee cups and food boxes, which are completely decomposed in a short time.

**Svijet se mijenja
vlastitim primjerom.**

PAULO COELHO

U težnji ka strategiji poslovanja bez otpada „zero waste”, u objekte Nacionalnog parka Plitvička jezera su uvedene komore za ras-hlađivanje otpada gdje se otpad od hrane selektira i predaje ovlaštenim otkupljivačima. Ovim postupkom se otpadno jestivo ulje pretvara u biogorivo.

**The world is changed
by your example.**

PAULO COELHO

We strive for a zero waste management strategy. In facilities of Plitvice Lakes National Park waste cooling chambers have been set up, where food waste is selected and handed over to authorized purchasers. This process converts waste edible oil into biofuel.

Nacionalni park Plitvička jezera dio je Lika Destinacije – destinacije zaštićenih područja i gastro-destinacije koju karakteriziraju tri klime i jedinstveni spoj kopna i mora. Dolaskom na Plitvička jezera kao jednu od polaznih točaka na vašem putovanju, ovaj svojevrsni fenomen kontrasta možete doživjeti istraživanjem raznolikosti Lika Destinacije.

Plitvice Lakes National Park is part of Lika Destination – a destination of protected areas and a gastronomic destination characterized by three climates and a unique combination of the land and the sea. By staying at Plitvice Lakes as one of the starting points on your trip, you can experience this kind of contrast phenomenon just by exploring the diversity of Lika Destination.

Učinite avanturu od svakog dana vašeg boravka

Uz Nacionalni park Plitvička jezera, kao jedne od najljepših prirodnih znamenitosti svijeta, Lika destinacija se može pohvaliti s još dva nacionalna parka, Paklenicom i Sjevernim Velebitom. Na ovom području se nalazi i jedini pećinski park u Europi – Pećinski park Grabovača, te mnoštvo drugih pećinskih lokaliteta od kojih se izdvajaju Baraćeve špilje sa staništem zaštićenih vrsta šišmiša, te Cerovačke špilje, s jednim od većih nalazišta špiljskog medvjeda u Hrvatskoj.

Istinski doživljaj slobode i suglasja s prirodom pruža Park prirode Velebit kao najveće zaštićeno područje u Republici Hrvatskoj, dok Kuća Velebita – posjetiteljski centar Nacionalnog parka Sjeverni Velebit nudi upoznavanje s tom fascinantnom planinom kroz izuzetno multimedijsko iskustvo za sve uzraste. Doživjeti jedinstven spoj planinske divljine i čovjeka je moguće u Utočištu za mlade medvjede u dojmljivom malom selu Kuterevu. Prošetajte tragovima 12. stoljeća na prekrasnom vidikovcu starog Drežnik grada, svjedoku burne povijesti ovog kraja smještenom na rubu kanjona rijeke Korane. Hrvatski centar za autohtone vrste riba i rakova krških voda čuva blaga koja skriva rijeka Gacka, jedna od najljepših ličkih krških rijeka. A to je tek dio bogatstava koje Lika destinacija posjeduje!

Allow yourself to make every day of your stay an adventure

Apart from the Plitvice Lakes National Park, as one of the most beautiful natural attractions in the world, in Lika Destination there are two other national parks, Paklenica and Northern Velebit. In this area is located the only cave park in Europe – Grabovača Cave Park, and many other cave sites from which Barać Caves stand out with habitat of protected species of bats, as well as Cerovac Caves, with one of the largest cave bear sites in Croatia.

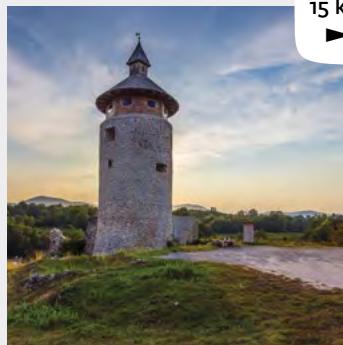

The true experience of freedom and harmony with the nature is provided by the Velebit Nature Park as the largest protected area in the Republic of Croatia, while the Velebit House – Visitor Center of the Northern Velebit National Park offers a piece of knowledge about this fascinating mountain through unique multimedia experience for every age. Experience combination of mountain wilderness and a man in the Velebit refuge for young bears situated in the impressive small village of Kuterevo. Take a walk in the footsteps of the 12th century on the beautiful watchtower of the Old Town of Drežnik, a witness to the turbulent history of this area located on the edge of the Korana River Canyon. The Croatian Center for Indigenous Karst Water Fish and Crab Varieties preserves the treasures hidden by the Gacka River, one of the most beautiful Lika karst rivers. And this is only a part of Lika Destination richness!

Pravila ponašanja i preporuke za posjet Parku

Rulebook and suggestions for visiting the Park

01 — Kao posjetitelj Parka dužni ste imati važeću ulaznicu za Nacionalni park Plitvička jezera (vrijedi za obilazak jezerske zone i planinarskih staza).

02 — Ponesite odgovarajuću odjeću i obuću.

03 — Ponesite zaštitu od kiše i sunca (kišobran, kabanicu, sunčane naočale, šešir, kremu za sunčanje - ovisno u kojem razdoblju godine dolazite)

04 — Prethodno se informirajte o dužini obilaska pojedinih staza kako biste imali dovoljno vremena za obilazak željenog programa.

05 — Na području Nacionalnog parka vremenski uvjeti su vrlo promjenjivi te može doći do privremenog zatvaranja određenih staza ili do zaustavljanja prometovanja vozila.

06 — Savjetujemo da se unaprijed informirate o vremenskim prilikama na našoj web

01 — As a visitor to the Park, you are required to have a valid ticket for the Plitvice Lakes National Park (for the lake zone and hiking trails).

02 — Wear appropriate clothing and footwear.

03 — Bring adequate rain and sun protection (umbrella, raincoat, sunglasses, hat, sunscreen - depending on the season)

04 — Be sure to check the information listed on our website about the length of certain trails, to ensure that you have enough time to complete the desired tour.

05 — In the area of the Park, the weather conditions are very changeable and certain trails may be temporarily closed or vehicles may be stopped.

06 — We advise you to check the weather conditions on our website, in the Information

stranici, u Info uredima Parka ili kontaktirate Službu marketinga i prodaje.

07 — Budite izrazito oprezni pri kretanju stazama koje prolaze strmim padinama i povrh kanjona.

08 — Stijene su izrazito skliske kad su mokre stoga budite oprezni pri kretanju (osobito špiljom Šupljarem).

09 — Tijekom boravka u prirodi čuvajte hrانu i piće u zatvorenim spremnicima i ne ostavljajte ostatke hrane i druge otpatke u prirodi.

10 — Prije konzumacije jela i pića dobro operite ruke.

11 — Otpad odložite na predviđena mesta za odlaganje otpada. Kante za smeće postavljene su na određenim lokacijama u Parku, stoga molimo da se otpaci ne ostavljaju duž staza.

12 — Psima je dozvoljen ulazak u Park isključivo na uzici (također vrijedi za brodove i vlakove).

offices of the Park or contact the Marketing and Sales Department.

07 — Be extremely careful when walking on steep slopes and over canyons.

08 — Rocks are extremely slippery when wet, so be careful during the walk (especially through the Šupljara Cave).

09 — During your stay in nature, store food and drinks in closed containers and do not leave food scraps and other waste in nature.

10 — Wash your hands thoroughly before eating and drinking.

11 — Dispose the waste in designated disposal areas. Garbage bins have been set up at certain locations in the Park, so please do not leave litter along the trails.

12 — Dogs are allowed to enter the Park only on a leash (it also applies to boats and panoramic vehicles).

Recikliranje je navika mudrih

Nacionalni park Plitvička jezera potiče selektiranje otpada i time uključuje zaposlenike, lokalno stanovništvo i posjetitelje u sustav održivog upravljanja otpadom. Recikliranjem čuvamo šume i vodu te smanjujemo količinu otpada.

Recycling is a habit of wise people

Plitvice Lakes National Park motivates towards waste selection and thus includes employees, local people and our visitors in the system of sustainable waste management. By recycling, we save forests and water as well as reduce the amount of waste.

A photograph of a large, rounded, reddish-brown rock or boulder resting on a grassy hillside. The rock has a textured surface with horizontal striations. In the foreground, there are several small, delicate white flowers with green stems. The background is a soft-focus view of a green landscape with more purple flowers.
